Chainsaw control WLC 2018

Due to time and organization constraints, ialc will perform the chainsaw inspection as follows:

- Marking of engine block, chain cover and mounted bar before the first discipline (Felling or Fitting of another chain)
- Randomly chosen participants throughout the WLC will be checked in accordance with the form (Protocol of the chainsaw control)
- The completed and signed form (Protocol of the chainsaw control) must be carried and presented during a check

Best regards

**International association logging
championships**
